TREASURE
COLLECTION

DOOR HANDLES & HARDWARE

Home is not a place, it's a feeling. It's where you're most comfortable and at peace. Every corner of your home is filled with emotions of joy and laughter. The stories of your family are deeply rooted within the four walls of your home. IVAS helps you relive these stories with love. All products that impact the look and feel of your home are designed intelligently. We at IVAS imagine products everyone's familiar with and fuse it with unconventional thinking to give our patrons a range of offerings. Think Tiles, Sanitaryware, Bath Fittings, Electricals, Modular Kitchens & Furniture or Designer Hardware. No one brand can weave a story encompassing all these intelligently together for you except IVAS. Every product from IVAS is a perfect synthesis of intelligent design, unique novelty, best pricing, and super convenience.

The Treasure collection of door handles from IVAS is called so for a reason. One look and you'll see the precision in the craftsmanship. One touch and you'll feel the elegance and warmth of their design. The simple activity of opening and closing doors is given an elevated status, with this all-new range, comprising enchanting designs and impeccable finishes. Mortise handles, Pull-door handles and a wide range of accessories are treated, polished, buffed, chrome-plated, metallized, and hallmarked with laser. The range is available in Steel, Antique Brass, Zed Black as well as PVD-coated finishes like Rose gold and Gold. In each of these stages of its production cycle, every handle undergoes meticulous inspection for unmatched quality and effortless performance. The raw materials are tested by a team of professionals and designers for quality inspection and control. Once each product is elevated to the highest level of quality, they go into production by keeping an exceptional focus on aesthetics and ergonomics in both the premium as well the economy ranges.

The end result, therefore, is hardware that's hard to resist, and easy to own.
